City Newsletter: August 2015

Welcome to Hickman: Our New City Administrator

We would like to take a moment to welcome our new City Administrator, Michael Meyers, and his family to the City of Hickman. It is truly an exciting time to be living and working in the City of Hickman and we are excited to bring Michael onboard as he will be a wonderful asset to our growing community.

Michael, his wife Paige, and their two year old son Landon are originally from Omaha, Nebraska but have recently purchased a home here in Hickman and will be moving into the community permanently at the end of August. Michael has a bachelor's degree in political science from the University of Nebraska at Omaha and is nearly completed with his master's degree in public administration with a concentration in local government also from the University of Nebraska at Omaha.

Michael's professional experience is primarily from the private-sector having been an Operations Manager for American Title, Inc., a real estate title company based in Omaha, for the past three years. Along with his experience in the private sector, Michael also has experience working with the City of Omaha and the City of Bellevue on community projects.

Through these positions in both the private and public sector, as well as his education, Michael has gained valuable experience in public budgeting, human resource management, organizational development, policy design and implementation, community development, and much more. When asked about working with the City of Hickman, Michael's response was, "I am extremely excited to be here in Hickman and working for the community. Local government is an absolute passion of mine and it excites me to see the growth happening in Hickman. I know that what we are doing currently, as a community, will have a tremendous positive impact not only today, but also on future generations in Hickman. I look forward to continuing to meet and work with the community as it has been delightful thus far. There is quite a bit to get moving on and the community is fortunate to have such a talented staff." Meyers concluded by encouraging citizens to stop by the City Office to say hello and introduce themselves.
