City Newsletter: February 2016

Community Center & City Hall Project Update

Despite the recent winter weather, the Community Center and City Hall project continues to move forward. Progress to date includes the footings and the retaining wall on the south side of the property. As the project moves into February, the focus will shift towards finishing the foundation, beginning work on the metal structure of the building, and installation of geothermal wells. There is quite a bit of activity in downtown Hickman and it has been exciting to watch the crews make significant strides in construction. This facility, scheduled to be completed December 2016, will be a tremendous asset for our community. If you ever have any questions, please call or stop by the City Office.

Sweet Mystery

For Valentines Day
My husband, so sweet
Bought hand made chocolates
For me as a treat
In a flower covered box
Came the delicious confection
But I am at a loss to answer
A most curious question
How can two pounds of chocs
So delicious on the lips
Manage in just one night
To put 5lbs on my hips
